**METALTECH**

**BUILT TOUGH FOR SAFETY**

# H-CART CONNECTOR

The H-Cart connector allows you to combine H-Carts together. Two configurations are possible: in length and in width. This tool makes it possible to carry and organize long equipment on construction sites. You can move any large and heavy unit such as doors and windows. Transport of metal pipes, steel pipes, plumbing pipes, wood, insulated pipes, and other products has never been easier. This connector increases the safety of your employees and reduces the risk of injury during product transit.

- Secure transportation of long or large equipment.
- 3000 lbs Load Capacity per Cart
- Simple and effective product
- No more equipment lying around on your jobsites.
- Two possible configurations

H-CART CONNECTOR
