JOBSITE SERIES™ GUARDRAILS SYSTEM

The Metaltech interior scaffolding guardrail is an indispensable safety measure for fall prevention and worker protection. Composed of solid, horizontal and vertical steel bars, it is securely attached to the scaffolding platform. Our railings are equipped with a toeboard to prevent objects from falling from the platform. Opt for a safe working environment with our Metaltech interior scaffolding railing.

**NEW
ANTI-SWAY DEVICE**

**GUARDRAIL
STABILIZER**

The stabilizers reduce guardrail movement and provide added stability. No more worrying about wobbly guardrails when climbing or standing on the scaffolding.

- Stabilize guardrails
- Included in all guardrail boxes
- No tools needed
- Easy installation

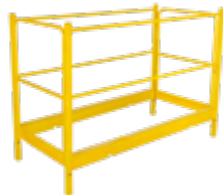

GUARDRAILS SYSTEM
